

Acknowledgements

Development of the *SUATS Long-Range Transportation Plan* was a collaborative process that involved numerous stakeholders, including the Transportation Plan Advisory Group, City and County staff, and the South Carolina Department of Transportation. The general public also provided input for this plan at public workshops held on August 10, 2006 and August 29, 2007. All of their efforts are greatly appreciated.

Transportation Plan Advisory Group

Al McElveen	Louis Tisdale
Ann August	Mac Kolb
Ben Griffith	Mark Pleasant
Chris Lacy	Mike Sullivan
Chuck Fienning	Norman Jackson
Dennis Gordon	O.J. Papucci
Doc Dunlap	Randall Young
Donna McCullum	Ray Reich
Eddie Newman	Rick Levy
Gary Hallmark	Sid Bacchus
Grier Blackwelder	Tammy Hodge
Les Carpenter	Tom Olsen

Table of Contents

Chapter 1 – Background and History.....	1.1
Chapter 2 – Introduction and Vision.....	2.1
Figure 2.1 – Study Area.....	2.2
Chapter 3 – Social and Environmental Screening.....	3.1
Figure 3.1 – Natural Resources.....	3.2
Figure 3.2 – Environmental Issues.....	3.3
Figure 3.3 – Social Features.....	3.5
Figure 3.4 – Percent Minority.....	3.6
Figure 3.5 – Percent Hispanic.....	3.7
Figure 3.6 – Percent Below Poverty.....	3.8
Chapter 4 – Existing Roadway Element.....	4.1
Table 4.1 – Activity Centers.....	4.1
Figure 4.1 – Functional Classification.....	4.2
Figure 4.2 – 2000 Congested Corridors.....	4.7
Table 4.2 – Intersection Priority Rankings.....	4.9
Figure 4.3 – Crash Location Rankings.....	4.10
Chapter 5 – Future Roadway Element.....	5.1
Figure 5.1 – Congested Corridors (Existing Plus Committed).....	5.2
Figure 5.2 – Recommended Roadway Projects.....	5.5
Table 5.1 – Highway Project Evaluation Matrix.....	5.7
Table 5.2 – Highway Project Evaluation Matrix Total Benefit and Impact Matrix.....	5.11
Table 5.3 – Benefits of Corridor Access Management.....	5.12
Table 5.4 – Types of Corridors and Potential Solutions.....	5.16

Chapter 5 – Future Roadway Element (*continued*)

Figure 5.3A – Access Management Strategies (Liberty Street Corridor East).....	5.18
Figure 5.3B – Access Management Strategies (Liberty Street Corridor West).....	5.19
Figure 5.4 – Access Management Strategies (Broad Street Corridor).....	5.21
Figure 5.5 – Access Management Strategies (Bultman Drive Corridor).....	5.23
Figure 5.6 – Access Management Strategies (McCrays Mill Road Corridor).....	5.25
Figure 5.7 – Access Management Strategies (Pinewood Road Corridor).....	5.27
Typical Cross-Sections.....	5.32- 5.41

Chapter 6 – Bicycle and Pedestrian Element.....6.1

Figure 6.1A – Existing Bicycle and Pedestrian Facilities.....	6.8
Figure 6.1B – Existing Bicycle and Pedestrian Facilities (Downtown Inset).....	6.9
Figure 6.2 – Existing and Proposed Bicycle Facilities.....	6.13
Figure 6.3A – Existing and Proposed Pedestrian Facilities.....	6.16
Figure 6.3B – Existing and Proposed Pedestrian Facilities (Downtown Inset)...	6.17

Chapter 7 – Transit Element.....7.1

Figure 7.1 – Existing SWRTA Routes.....	7.3
Table 7.1 – Fixed Route Operations in Sumter.....	7.3
Table 7.2 – Sample Greyhound Fares.....	7.4
Figure 7.2 – Population Density and Transit Routes.....	7.7
Figure 7.3 – Vehicles Available and Transit Routes.....	7.8

Table of Contents (continued)

Chapter 8 – Freight and Aviation Element.....	8.1
Figure 8.1 – Existing Railroad Facilities and Industrial Parks.....	8.3
Figure 8.2 – Proposed Truck Route Designations.....	8.5
Figure 8.3 – Existing Airport.....	8.8
Table 8.1 – Historical Based Aircraft.....	8.9
Table 8.2 – Based Aircraft by Type.....	8.10
Table 8.3 – Projected Emplaned Pilots and Passengers.....	8.10
Chapter 9 – Scenario Planning.....	9.1
Figure 9.1 – Urban Form Category Descriptions (T1 – Natural Areas).....	9.3
Figure 9.2 – Urban Form Category Descriptions (T2 – Rural).....	9.4
Figure 9.3 – Urban Form Category Descriptions (T3 – Suburban).....	9.5
Figure 9.4 – Urban Form Category Descriptions (T4 – General Urban).....	9.6
Figure 9.5 – Urban Form Category Descriptions (T5 – Urban Core).....	9.7
Figure 9.6 – Urban Form Category Descriptions (T6 – Special District Shaw AFB).....	9.8
